TRANSLATION

MA Group helps you with professional translation of your manuscript. We carefully select specialists in your domain to uphold and improve the precision of your documents in the desired language. Among the global team of 1,000 English proofreaders, we have 150 full-time staff members who are native speakers. We can readily accommodate inquiries related to turnaround times and fees.

Scientific translation service is performed in 3 stages:

1 Scientific translation
- translation by an expert in the subject area.

2 Checking
by a bilingual proofreader.

3 Editing by a native speaker:
an expert in English checks grammar, punctuation, spelling, etc.

*You don't need to pay for the editing service additionally when ordering the Scientific Translation, as editing is a part of the service.

EDITING SERVICES

Our professional editing service is tailored for authors who prioritize quality and seek a comprehensive language review of their manuscripts. Manuscripts submitted for this service are returned free of language, grammar, and punctuation errors, along with corrections to any inaccuracies in technical terminology. Our editing service offers a competitive price point compared to our Substantive Editing service, ensuring the delivery of a manuscript eligible for publication in SCI-indexed journals.

The Publishing Preparation service includes:

■ Editing by 2 native English-speaking editors:

- Subject matter expert
- English language expert

- Manuscript review for substantive content, technical accuracy, coherence, and organization.
- Checking language, grammar, punctuation, references, tables, terminology, etc.
- Structural review of the article
- Formatting according to journal's guidelines
- Reduction of article length (if necessary)
- Certificate of editing
- Re-editing of the article free of charge for 365 days
- Cover letter written by your editor that showcases the originality and distinct added value of your research
- Make sure your manuscript adheres to all submission guidelines
- Detailed article report with comments from the editor
- Free consultation with the editor for 365 days

Science Editing

Science editing is a premium service and it is specifically tailored for quality conscious authors looking to submit their work in peer-reviewed international journals. It covers all aspects of Copy Editing and includes advanced editing that enhances the logical flow, structure and overall presentation of your manuscript.

The additional services include:

MA

Reduce the chances of your work being declined: Protect your manuscript from rejection. We'll assist you in addressing feedback from peer reviewers and getting your paper ready for resubmission to either the same or another journal.

MA

Unlimited editing: We will edit your paper as many times as necessary until you're content with the results.

PUBLICATION SUPPORT

01

Journal Selection

Choosing the appropriate journals is the initial stride towards achieving publication success. The individual with expertise in the field will pick out the top 5 journals for the paper, based on specified criteria like impact factor, database inclusion, publication urgency, quartile ranking, and more. Additionally, this specialist will furnish suggestions aimed at enhancing the manuscript's quality and expediting its publication.

Within MA Group, there's engagement with major repositories of global journals. These encompass publications indexed in SCI, SSCI, Web of Science, Scopus, and other databases. It is ensured that the selected journal is reputable and not predatory.

02

Plagiarism Check

Employing sophisticated software like iThenticate, we conduct a thorough scan to authenticate the authenticity of your manuscript. This process aids in detecting segments within the text that might be considered instances of plagiarism.

03 Preliminary Expert Assessment

MA Group offers a preliminary peer review of your manuscript within 7 days. Professional reviewers (experts in various subject areas) will analyze your work in detail and provide recommendations to improve your manuscript. Our team of experts has experience in reviewing manuscripts for high IF journals like Nature, Science, Cell, Cell Biology, The Lancet, PNAS, etc.

You will receive thorough evaluations of your research content and manuscript presentation from the perspective of a journal peer reviewer.

04 Journal Submission

MA Group will save you time and energy with a fast and accurate journal submission.

Before submission, we will once again check that your manuscript complies with all journal's guidelines.

Experts will handle filling the forms, uploading documents for you, and even writing a cover letter, if necessary.

We will monitor the status of your submission, provide updates on journal correspondence, and assist you in handling requests from the journal editor. This includes supporting the process of resubmitting your revised manuscript to the same journal, allowing for up to three attempts within 365 days following the initial submission.
